Dear City Council Committee and Mayor,

I am unable to attend this morning's meeting, as it is during working hours. However, I am very concerned about expanding the area designated industrial right at the border of the Killbuck Forest Preserve and Kishwaukee River Watershed. This is a precious natural area, important to many species, and enjoyed by the community for many activities. The area already has proposed business that would disrupt this in irreparable ways. I am not in favor of expanding this.

Thank you for your continued support and consideration.

Sincerely,
Karyn Schwitters
