

PLANNING & ZONING REPORT
Zoning Board of Appeals Meeting of March 17, 2026
Laid over from February

File # 003-26

APPLICANT: Midwest Yard Holdings, LLC
LOCATION: 2530, 2710, 2720 South Main Street
REQUESTED ACTION: A Special Use Permit for a Planned Use Development for an RV and Fifth Wheel only community in an R-1, Single family Residential Zoning District.
EXISTING USES: Mobile Home Park
PROPOSED USES: RV and Fifth Wheel only community
DIMENSIONS: Irregular shape **SQUARE FOOTAGE:** 15.49 acres

ADJACENT ZONING AND LAND USES:

NORTH:	R-1	Vacant land, Single family residences
EAST:	RE	Blackhawk Park
SOUTH:	County AG, R-3	Vacant land, Single-family residences
WEST:	C-3, RE	Vacant land, Klehm Arboretum and Botanical Gardens

YEAR 2040 PLAN: PA Priority Park Acquisition

SOILS REPORT: No soils report on file.

HISTORY: **File #063-21:** A Zoning Map Amendment from Winnebago County RMH and CC to City R-3, Multi-family Residential, a Special Use Permit for a mobile home park in an R-3, Multi-family Residential Zoning District was approved on March 21, 2022 for the property located at 4650, 4680, 47XX, 4848, and 49XX South Main Street. This is approximately 2 miles south of the subject property.

There's no other relevant immediate history.

REVIEW COMMENTS: The Applicant is requesting a Special Use Permit for a Planned Use Development for an RV and Fifth Wheel only community in an R-1, Single family Residential Zoning District. The subject property consists of 15.49 acres in size when combined. Exhibit A shows that the subject property and is located east of South Main Street and west of the Rock River.

The Applicant is Midwest Yard Holdings LLC. The subject property is zoned R-1, Single-family Residential Zoning District. The subject property was developed as a mobile home park in the County. This property was annexed into the City in 2001 and it is considered grandfathered. Over the years, numerous mobile homes were removed due to deteriorated and/or damaged mobile homes. The residential districts are intended to create, maintain, and promote a variety of housing opportunities for individual households and to maintain the desired physical character of existing neighborhoods and

developing areas consistent with the city's official comprehensive plan. These regulations are intended to ensure that permitted and special uses are compatible within each district. They are intended to maintain and protect residential property values and to promote the peace, quiet, and enjoyment of the city's residential areas by requiring setbacks and open spaces on the same lot as the residential development. The Applicant's proposal is to change this from a mobile home park to an RV and Fifth Wheel community, hence the Applicant requested the Special Use Permit for a Planned Use Development to allow for flexibility and allow more efficient use of land.

The Applicant submitted two different type of options for development of the site. Exhibit D is option 1. This option shows a total of 85 concrete pads. The pads are at different directions with private drives. There would be 15 feet in between each pad. The park office building would be up front by the main entrance and have parking for two (2) spaces including a handicap space. The setback off the rear property line along the Rock River would be 22 feet. The required setback off the property line along the Rock River is 50 feet per the ordinance but these are not permanent structures, just concrete pads for the RVs and 5th Wheels. There is an existing sanitary sewer lift station in that area as well.

Exhibit E is option 2. This option shows a total of 85 concrete pads. The setup shown is all angle pad parking. There would be 15 feet in between each pad. The park office building would be up front by the main entrance and have parking for two (2) spaces including a handicap space. The setback off the rear of property line along the Rock River would be 23 feet. The required setback off the property line along the Rock River is 50 feet per the ordinance but, again, these are not permanent structures, just concrete pads for the RVs and 5th Wheels. There is an existing sanitary sewer lift station in that area as well.

The Applicant submitted Exhibit F, an overlay of the site on an aerial of the subject property with the proposed landscaping. The exhibit shows landscaping proposed in two different spots along South Main Street. Exhibit G shows a closer view of the proposed locations. The proposal shows that there would be a combination of deciduous and evergreen trees and shrubs along with mixed perennials and ornamental grasses.

Exhibit H is the Applicant's statement. The Applicant indicates "The plan is to improve and refine the existing use of the site by removing the aging mobile homes over time, upgrading site infrastructure, improving site order with delineated concrete pads and asphalt interior roadways, enhanced streetscaping, and safety features." The goal is to retain a long term residential-style RV park to fill a needed gap between the recreational campground and traditional permanent housing. There will be operational principals to help manage the property that would include clear site rules, tenancy standards, provide regular maintenance and waste management, and provide tenant amenities including riverfront access. The plan is to phase out the existing mobile homes and transition it to an RV and Fifth Wheel only community. To complete this task, an assessment would be conducted to ensure that the improvements are done to improve the entire site.

Exhibit I is the findings of fact provided by the Applicant. The Applicant indicates "The project will meet all requirements and standards of PUD

regulations. The project is an efficient use of the land. The proposed use will utilize land in a floodplain in a way that minimizes flood risk. The conversion from a mobile home park to a RV park means that the occupants will now be mobile. When a flood risk arises, the RVs or fifth wheels can be easily removed from the property. The improvements to be made to the property are allowed within a floodplain, including the installation of paved roadways allowing for easier movement within the property and better access to the property. The PUD also includes the installation of a multi-use path for the public to use along the property line adjacent to South Main Street. Additional landscaping, open space, and a park will be added to enhance the natural features of the site.

Exhibit J is the service calls for the last two years. There were a total of 141 service calls for 2530 South Main Street.

Since the property is located within the floodway and floodplain, this proposal is subject to compliance with the applicable regulations and submission to local and state reviewing agencies. The Applicant will need to work with our Public Works Department for this redevelopment. The site plan will need to incorporate the phased removal of existing mobile homes, installation of concrete pads and paved streets, stormwater improvements, landscaping, completion of the multi-purpose path along South Main Street, and inclusion of the proposed playground and associated site amenities. With these conditions in place, the redevelopment will modernize the site, improve infrastructure and public connectivity, and bring the property into greater conformity with current City standards. Staff feels that the Applicant's proposed request is reasonable and, therefore, Staff supports this request.

RECOMMENDATION: Staff recommends APPROVAL of a Special Use Permit for a Planned Use Development for an RV and Fifth Wheel only community in an R-1, Single-family Residential Zoning District, subject to the following condition:

1. Meet all applicable Building and Fire Codes.
2. Submittal of a final detailed site plan for staff's review and approval.
3. The Applicant shall work with Public Works Engineering Staff for the required floodplain/floodway development permits, development permits for the concrete pads, and development permit for the paving of the roads, including stormwater review.
4. The Applicant shall work with Engineering Staff on the installation and design of the multi-purpose path. Engineering Staff may allow cash-in-lieu of the multi-purpose path since this is adjacent to a State Route.
5. A one-lot subdivision plat is required to be submitted, reviewed, approved and recorded via the Subdivision Review Process.
6. The property shall be developed as per the approved one lot plat, site plan and landscaping plan approved by Staff.
7. Must phase out the existing mobile homes completely by August 1, 2028.
8. All Concrete pads must be installed by October 1, 2028.
9. All road must be paved by October 1, 2028.
10. All conditions must be met prior to establishment of use.

See attached findings of fact.

**FINDINGS OF FACT FOR APPROVAL OF A SPECIAL USE PERMIT
FOR A PLANNED USE DEVELOPMENT FOR AN RV AND
FIFTH WHEEL ONLY COMMUNITY
IN AN R-1, SINGLE FAMILY RESIDENTIAL ZONING DISTRICT
LOCATED AT 2530, 2710, 2720 SOUTH MAIN STREET**

Approval of this Special Use Permit is based upon the following findings:

1. The establishment, maintenance or operation of the Special Use Permit will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare of the community.
2. The Special Use Permit will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, and will not substantially diminish or impair property values within the neighborhood.
3. The establishment of the special use will not impede the normal or orderly development and improvement of the surrounding property for uses permitted in the district.
4. Adequate utilities, access roads, drainage and/or necessary facilities have been, are being, or will be provided.
5. Adequate measures have been or will be taken to provide ingress or egress so designed as to minimize traffic congestion in the public streets.
6. The special use shall conform to the applicable regulations of the R-1 District in which it is located.

APPLICANT STATEMENT

Rock River Yards
2530 S. Main Street, Rockford IL 61102

Project Overview & Vision

This proposed PUD seeks to modernize and redevelop the existing Riverview 5th Wheel and Mobile Home Park into an RV- and 5th-Wheel-only community designed to serve long-term recreational vehicle residents, including tradespeople, traveling professionals, and regional RV owners seeking stable, well-maintained accommodations in the City of Rockford close to downtown and on the key South Main revitalization corridor.

The plan is to improve and refine the existing use of the site by removing the aging mobile homes over time, upgrading site infrastructure, improving site order with delineated concrete pads and asphalt interior roadways, enhanced streetscaping, and safety features.

Our vision is for Rock River Yards to be a centrally located, professionally managed RV community that serves workforce and trade-related residents who require long-term accommodation within the City of Rockford, filling a needed gap between transient recreational campgrounds and traditional permanent housing, diversifying the Rockford residential stock.

Rock River Yards

The proposed RV community called “Rock River Yards” is intended to function as a long-term residential-style RV park, not a short-term transient campground. The park will be organized into up to 85 pads and utility hookups designed to accommodate 5th Wheels and other RVs with paved internal roads, appropriate spacing, and turning points. The site will also feature a riverfront open space for tenants to enjoy.

Key operational principles will include:

- Clear site rules and tenancy standards
- Defined pad dimensions and spacing
- Individual electric utility metering
- Regular grounds maintenance and waste management
- Site management and oversight
- Tenant amenities and riverfront access

Site Improvements & Benefits

The proposed PUD enables the following improvements:

- From a mixed mobile home and 5th wheel site to an RV and 5th Wheel only community
- From ageing infrastructure to improved site layout, circulation, and utility systems
- From informal tenancy structures to professionally managed leases and billing
- From higher-risk site use (MHP in a federal floodplain) to lower-impact occupancy

The benefits to the City of Rockford of this PUD include reinvestment in an under-improved site along the South Main revitalization corridor. Support for workforce and traveling trade housing as the city expands its industrial and manufacturing base (e.g. Rockford Brake Manufacturing, Stellantis Belvedere, J.L. Clark, airport support services, etc.). Improved tax base stability and lower enforcement, maintenance, and compliance burden. The proposed PUD also lowers the flood risk to structures due to ability to remove RV and 5th wheels during flood events.

Phasing

Recognizing the scale of the site and the importance of stability the redevelopment is planned to occur in phases, allowing improvements to be implemented responsibly and in coordination with city oversight. Anticipated phases include:

1. Stabilization and transition from MHP (formalization of new management, phased MHP vacancies, infrastructure assessments & repairs, screening on South Main)
2. Infrastructure improvements (utility upgrades, existing pad renovations, phased internal road paving, site safety improvements)
3. Pad expansion build-out (addition of new pads and associated utilities)

Applicant Experience

While the Applicant is not a large institutional RV park or MHP operator, they bring relevant experience in real estate ownership, RV park and campground redevelopment, financial planning, and long-term asset management experience backed by private family capital. The Applicant is also supported by professional advisors all from within Rockford and the surrounding area.

Importantly, the Applicant's ownership model is long-term oriented, not speculative. Their intent is to own, operate, and reinvest in the property over many years, aligning incentives toward maintenance, compliance, and compatibility with the city and its residents' needs.

CRITERIA FOR APPROVAL OF SPECIAL USE PERMIT FOR A PLANNED UNIT DEVELOPMENT (PUD)

1. The design of the planned unit development presents an innovative and creative approach to the development of land and living environments.

The design of the project modernizes the current use of the property and converts it into a use not found in the City of Rockford. The current residential mobile home park will become a RV Park converting the use from residential mobile home use to use by RV's and fifth wheel trailers providing both residential and recreational use. The conversion will include installation of upgraded facilities, including paved roadways, new utilities, increased landscaping and a park. The PUD is a creative reutilization of the site which also improves the appearance of the site to the general public.

2. The planned unit development meets the requirements and standards of the planned unit development regulations.

The PUD will meet all requirements and standards of PUD regulations.

3. The physical design of the planned unit development efficiently utilizes the land and adequately provides for transportation and public facilities while preserving the natural features of the site.

The project is an efficient use of the land. The proposed use will utilize land in a floodplain in a way that minimizes flood risk. The conversion from a mobile home park to a RV park means that the occupants will now be mobile. When a flood risk arises, the RVs or fifth wheels can be easily removed from the property. The improvements to be made to the property are allowed within a floodplain, including the installation of paved roadways allowing for easier movement within the property and better access to the property.

The PUD also includes the installation of a multi-use path for the public to use along the property line adjacent to S. Main St. Additional landscaping, open space and a park will be added to enhance the natural features of the site.

4. Open space, common open space, and recreational facilities are provided as required.

The PUD will include the addition of common open space and a park.

5. The modifications in design standards from the subdivision control regulations and the waivers in bulk regulations from the zoning regulations fulfill the intent of those regulations.

Applicant is not aware of any modifications that are necessary.

6. The planned unit development is compatible with the adjacent properties and nearby land uses.

The PUD is compatible with the adjacent properties. The land is currently used for a residential mobile home park. The proposed use would include the addition of increased landscaping and the

addition of a multi-use path. The proposed use is still residential but differs from a traditional mobile home park.

7. The planned unit development fulfills the objectives of the official comprehensive plan and planning policies of the city.

The PUD fulfills the objectives of the official comprehensive plan and planning policies as the project utilizes and improves a piece of property that will be difficult to develop for other purposes. The property is located in a flood plain, which limits development opportunities. The proposed use and improvements are allowed in a flood plain.

The proposed use provides an option for increased residential use with a recreational component not currently existing in Rockford. In addition, the proposed use includes the installation of a public multi-use path, landscaping and a park area for recreational use. The property is currently shown as priority park acquisition on the 2020 land use plan. The proposed use is consistent with the spirit and intent of the proposed use on the land use plan since it contains a recreational component and will include the addition of a park and multi-use path.

8. The Zoning Board of Appeals shall be required to make written findings of fact based on the criteria for approval on a planned unit development application or any changes to a planned unit development.
